Plastic bags are an integral part of our everyday lives. With only a small percentage being recycled, where do the others end up? Rolling and flying in the wind? Caught on fences along the length of the country, in the cities and in the sea ... Will we see the light and change our behaviours surrounding their use and disposal?

## GALLERY LISTINGS

- 6 ARTIS GALLERY LIGHT PLAIN**  
10am - midnight  
J S Parker's exhibition, *The Light Plain*, features works completed last year, that reflect the changing light outside the artist's studio doors and how the seasons influence his palette. Although abstract in a modernist context, Parker's method of painting has links to Impressionism, both in colour and mark making, where light is the main focus but on occasions colour becomes the chief element.

**\*PARNELL GALLERY FREE ARTIST TALK ART IN THE HOME**  
8.00pm - 8.30pm  
Start with Art! - How Art can be the primary source of colour, life and individuality in your home. Come and hear Auckland artist Greer Clayton talk about space and colour - how to incorporate works into your home design style, eroding the fear of mix and matching, lighting, framing and adding impact to the interior.  
Clayton, exhibits at Parnell Gallery and is a Resene paint colour expert, will discuss how we can use art to enhance our interiors, beautify spaces and display works for maximum impact.

- 12 PIERRE PEETERS GALLERY FISHMILK (BORDERS)**  
6pm - midnight  
An exhibition bridging the borders that we set up between each other as individuals as well as nations - across North, South, East and Western. In the midst of the Syrian refugee crisis and the migrant workers influx, this exhibition is about current political events and then the contrast to our privileged, often shallow position, on this 'safe' side of the world. The meeting and dividing - what we have in common across cultures and what are the differences. What are our deeper questions of being, our values for the future.
